THE ULTIMATE ONLINE PROTECTION AND AUTOMATION YOUR BUSINESS NEEDS

Avast Ultimate Business Security

Avast Ultimate Business Security is a comprehensive solution that offers top-notch protection for your business. With its award-winning business antivirus, data protection, advanced privacy tools, and automated patch management, it ensures that your devices and applications are always up-to-date and secure. Keep your business safe and protected with Avast Ultimate Business Security..

P

Requ

Peace of mind

Get more peace of mind with Avast's award-winning business antivirus that's rich with features that won't slow your business down.

Stay secure and private online

Give your employees the privacy and security they need, so they can stay productive while they're working from.

Patch Management

Save time with automated patching. Cybercriminals exploit unpatched software vulnerabilities in systems and commonly used applications (Java, Adobe, Google Chrome, Zoom, etc.) to launch attacks. Avast Business Patch Management will automatically address vulnerabilities in third-party applications to keep your business safe.

Space out

For many companies, an attack could set them back more than six months. We needed a remediation tool to get our customers up and running quickly. NeuShield Data Sentinel gives us that piece of mind.

Darin Harris
COO Remote Techs
← 01 / 01 →

Space

NeuShield Data Sentinel enables an organisation to recover quickly from a Ransom Attack with a click of a mouse.

Avosec Brings NeuShield Data Sentinel to the UK. A brand new product for the UK and a Partner opportunity not to be missed!

MIRROR SHIELDING™

The NeuShield's award-winning Mirror Shielding™ technology enables you to recover your data instantly, without relying on backup or rollback, from any kind of corruption, deletion, or encryption due to cyberattacks or ransomware. Your data will never be held hostage again.

NeuShield Data Sentinel provides Cyberthreat insurance against Ransomware.

REMOTE ONE-CLICK RESTORE

Brings the computer back to a known good state, before it became infected by Ransomware. The admin is able to revert undesired changes to your computers and removes malicious applications that have been installed by a virus, malware or ransomware attack.

Remote revert files Mirror Shielding™ technology Can undo any change to a file or folder that was made

EVERY ORGANISATION SHOULD HAVE THIS SOLUTION

Can you rely 100% on Antivirus? We both know the answer to that question.

What if you are hit by Ransomware, your files encrypted. Your business is damaged, money lost, data stolen?

If you have NeuShield Data Sentinel in place then you can forget the damage, money loss.

Click, your back in business literally.

Zero Day Attack Coming?

You have Antivirus software GREAT! Detection of viruses has a lag and Many systems are infected for a while before detection i've got Antivirus i'm safe! Fatal mind set with ransomware Antivirus relies on samples to create detection. Detecting ransomware after infection is too late The Damage is already done...Enter NeuShield Data Sentinel

What is NeuShield Data Sentinel?

NeuShield Data Sentinel:

- Instantly recovers all user data
- Saves time by returning the computer to a known good

<https://avosec.com/fortytwo-security-scans/>

Original ones wrong too 😊

FortyTwo Security

Trusted in Information Security

How we support you.

Fortytwo offers multiple options for security scanning, from a quick scan of potential risks to a more in-depth assessment. We can customise the scan, depending on your company's needs. Our Security Quickscan provides quick insight into the current state of security. Fortytwo will ask for documentation in network topology and information policy. This data will be analysed, and Fortytwo will provide a report of vulnerabilities and security risks of the particular IT infrastructure.

Formatting and layout is completely wrong
